TURN YOUR DIPLOMA INTO A DEGREE

[BE MORE AWESOME]

TURN A DIPLOMA INTO A DEGREE = AWESOME

Did you know you can start out studying a diploma at Think Education and then move onto a bachelor degree or another course? Known as study pathways, this is a way to gain entry into a degree if you don't meet the entry requirements. Additionally, if you've studied previously or have relevant work experience in the industry, you may be eligible for course credits or recognition of prior learning.

THINK EDUCATION OFFER CREDITS FOR:

- Specific nationally recognised vocational courses, which could shave up to a year or more off the duration of a bachelor degree program
- Individual subjects you have completed elsewhere

AM I ELIGIBLE FOR COURSE CREDIT?

If you have previously studied a relevant course before, then you may be eligible to receive course credits to shorten the length of your new qualification. This can fast-track your studies and allow you to graduate quicker.

RECOGNITION OF PRIOR LEARNING

If you've completed past study or can demonstrate life or work experience related to the course you want to study, then you may be eligible for recognition of prior learning which could give you a subject exemption. You can apply for this before you start your course.

WHY SHOULD I UPGRADE?

Think Education is committed to helping you advance your career in Hospitality, Business, Health or Design.

Today's job market is highly competitive with employers and industry demanding highly qualified workers. If you are looking to boost your career- whether you want a promotion, a new job, an increase in salary or even want to start your own business - upgrading your qualification will give you the confidence, skills and experience to get ahead in your career and achieve your goals.

If you already have this Qualification...
